

Amril are proud to work alongside Swindells LLP as their preferred supplier.

With over 20 years experience within the credit management industry, we strongly believe:

“It’s not Credit Management, It’s Relationship Management”

We cannot know all there is to know about growing a business, and sometimes we need professional support in matters we don’t specialise in.

At Amril, we have a variety of services that will strengthen the foundation of your business and support your growth in the future even in these difficult economic times.

At Amril, for instance, we know B2B debt collection success erodes as the debt gets older. In the last 12 months, we’ve compared our collection success on B2B invoices aged 60-120 and 121+ days respectively. The older invoices performed 46% less well than the younger invoices. Unresolved disputes and insolvencies were the main reasons for the much poorer recovery rate.

So why do businesses hang on to their invoices for so long? All too often, they are instructed to use a DCA as a last resort so they’re forced to continue with their own collection efforts. BACS statistics show SMEs are owed £33.6BN, 10% more than a year ago.

We support the B2B sector with services that will impact positively on your bottom line and strengthen your business relationships

We **increase** business **Net Worth**, **Credit Rating** and **Cash Flow**

We **reduce** **Liabilities**, **Late Payment** and **Bad Debt**

- B2B Worldwide Debt Collection – We get Testimonials from Debtors!
